3 MAY 1965

MEMORANDUM FOR: Executive Director-Comptroller
Deputy Director for Intelligence
Deputy Director for Plans
Deputy Director for Science and Technology
Director of Personnel
Inspector General

SUBJECT: : Statistical Reporting System for Non-staff Personnel

REFERENCES : (a) Memo dtd 5 Jun 64 to DDCI fr IC, subj: Proposal
for Quarterly Statistical Reporting of CIA Non-
staff Personnel

(b) Memo dtd 2 Apr 65 to DD/S fr Chmn, Committee
on Non-staff Personnel, subj: Non-staff Personnel

1. It is my understanding that on behalf of their respective Deputy Directorates the members of the ad hoc committee appointed to study the problem of developing a statistical reporting system for non-staff personnel have concurred in the recommendations in Reference (b). The recommendations are therefore approved for immediate implementation in order that these statistics may be in the hands of the Executive Director-Comptroller without further delay.

2. I propose, however, to review with the Executive Director-Comptroller and the committee the results of the first report with a view to refining and/or improving the procedures both for collection and submission and for eventual use of the information.

3. The following questions about the recommended procedures occur to me now (and others may occur to us later):

a. Recognizing that the report was never intended to include agents, is it really necessary to report via separate channel other DD/P non-staff personnel including, chauffeurs, warehousemen, laborers, and other similar types?

b. If this is so, then why does this same procedure not apply to other components as well?

25X1

c. Why should [redacted] for example, be reported through one channel and other proprietary projects through another?

d. If there is a security or cover factor here which dictates a separate system, is this factor any more overriding in one organizational component than another?

e. Is this a least-common-denominator solution to the problem? If so, is it the best solution?

[redacted]

25X

L. K. White
Deputy Director
for Support

2 Atts: References (a) and (b)
